

# BEAMRIDER® LASER-GUIDED LINE MARKING

*Our exclusive Beamrider® laser-guided line marker utilizes the latest laser technology with digital recognition software which will produce perfectly straight lines every time.*

*No more wobbly lines, no need for strings and pegs, Beamrider offers precision speed and simplicity by removing all human error associated with traditional line marking.*

## THE KEY ADVANTAGES OF THE LASER GUIDED SYSTEM ARE:

- Quick, consistent quality
- Quick set-up times
- Perfectly formed straight lines
- Perfectly formed right angles, rectangles and squares
- No more string lines to unwind, set out, align or wind up
- Multi surface marking capability
- Time and labour saving
- Automatic shut off system if the laser beam is lost.
