

PARTNERS PROGRAM

The **Partners Program** is set up for the smaller club that wants professional looking fields but does not like the hassle of setting out fields, purchasing and storing paint, and the storage & maintenance of equipment.

LazerLines provides all the necessary equipment and marking materials to do the weekly line maintenance yourself effectively and economically.

HERE'S HOW IT WORKS:

LazerLines does the initial set out and painting of your fields. We then provide you with two line marking options.

1. AEROSOL LINE MARKING

Includes Aerosol line marker(s) and just the right amount of paint you will need for two weeks of line marking

2. BULK READY TO USE PAINT

Includes ready to use paint and easy to push electric line marker which will give you professional looking lines at up to 30% savings over Aerosol.

LazerLines delivers the paint every two weeks to your single location and while we are there, we will service your liner to make sure it is working properly.

LazerLines does everything except push the machine, you enjoy a walk in the park.

Aerosol Line Marker with all terrain wheels

Battery operated line marker with ready-to-use paint. Professional lines at a savings over Aerosol.
